

Owner Builder Report

The following matters are covered in your report (which is valid for 6 months):

- The Report will only cover the Owner Builder works (whether requiring a building permit or not). It will list incomplete work & defects identified in works done in the past 6 ½ years.**
It follows a detailed inspection
- The Report does not place any legal obligation on the Owner Builder to rectify defects or complete unfinished work(s)**
However an insurer may refuse cover for certain defects or at all
- Defects listed in the Report are generally not covered by Builder's Warranty Insurance**
The Report does offer protection to the Owner Builder against future claims

The following documents are requested (for viewing only) at the BSS inspection:

- Architectural & Structural Engineer's drawings & computations ('stamped approved');
- Building Permit; - Certificate of Occupancy - or – of Final inspection;
- Compliance Certificates for Plumbing, Electrical, Glazing, Waterproofing etc;
- Any Building Notices, Orders etc.

Please note that we need to have all documents available on the day of the inspection. If you send drawings to us later and you would like us to refer to them, then you will incur a second fee for a re-inspection with the documents on hand.
